

Fostering Curiosity, Wonder, and Skepticism

Ask yourself questions aloud, in front of students...

- What I am curious about is...
- What I do not yet understand is...
- I really want to find out...
- The mysteries and puzzles that intrigue me are...
- If I could be somebody else...or visit another time period, this is what I'd want to discover...
- I really wonder why...
- What intrigues me is...

KWL Strategy

KWL is an effective prereading strategy that taps into a student's prior knowledge; and in the expanded form below (KWL Plus) will also serve as an indicator of student interest. It taps into student curiosities before they begin reading, thereby enhancing the meaningfulness of the learning experience.

Know List what we know about the topic. Identify categories of information.	Want to know Ask questions you want to have answered about the categories.	Learned What have you learned and what are the answers to your questions?
Categories List the categories identified from the "know" section.
